Are you a Doctor who cares about the future of American healthcare?

Greetings!

June 11, 2015

This message is for ALL concerned doctors. Regardless of your political views, your specialty, how long you've been in practice -- or even if you haven't started practicing yet -- if you care about America's healthcare future, *you need to know about this conference.*

*Join us July 20 - 26, 2015 in beautiful Keystone, Colorado
for one of the most important
healthcare policy conferences
of 2015.*

Are you in love with the practice of medicine? As doctors, we should be spending the best part of our day - literally and figuratively - caring for patients and applying our hard earned knowledge, skills, and expert judgment to their best interests. Are you excited about medicine's future - inspired by the explosion of knowledge, new technology, and innovations that are improving our ability to reduce suffering and offer cures? Are you confident that your patients will be able to afford the care they desire?

If this does not describe your experience of medicine - it's because you are part of a tragedy that never had to happen.

BE PART OF THE SOLUTION.

Heritage Foundation staff, there was something for everyone at this, our largest Leadership Conference to date. We hope you enjoy watching these videos at your leisure.
